Notes:

The department determined some projects are ineligible for SDWLP funds based on the Notice of Intent to Apply form or Priority Evaluation & Ranking Form received by 12/31/05. Those ineligible projects are not included on the Project Priority List.

¹ These projects have closed or are likely to close on a loan from SDWLP SFY 2006 funds, so the project costs funded with SFY 2007 funds for these projects will be either \$0 or a significantly reduced amount than that shown on the Priority List.

² This project may only be able to receive partial funding in SFY 2007; statutes state that no local governmental unit may receive more than 25% of the biennial present value subsidy.

³ If Census Bureau data indicates that these sanitary districts have median household incomes (MHIs) that are 80% or less of the state's MHI, the department will adjust the scores for these projects upward as appropriate.

⁴ This project received partial funding in SFY 2005.
